MAES
REYNS
KWEKERIJ

Geachte heer / mevrouw,
Het nieuwe seizoen klopt aan, en daarom presenteren wij met trots onze gloednieuwe catalogus. We nodigen u van harte uit om ons bedrijf te bezoeken. Ook kunt u ons vinden op de **Florall beurs in Waregem op 3 maart en 25 augustus**.

Voor verdere informatie staan wij graag tot uw beschikking en wensen wij u een succesvol 2026 toe.

Met vriendelijke groeten,
Isabelle, Wim, Frans, Margriet en het Maes-Reyns team.

Cher monsieur, Chère madame,
La nouvelle saison frappe à la porte et nous sommes fiers de vous présenter notre tout nouveau catalogue. Nous vous invitons cordialement à visiter notre entreprise. Vous nous trouverez également au **salon Florall à Waregem le 3 mars et le 25 août**.

Pour de plus amples informations, nous restons volontiers à votre disposition et vous souhaitons une année 2026 pleine de succès.

Cordialement,
Isabelle, Wim, Frans, Margriet et toute l'équipe de Maes-Reyns.

Dear Sir / Madam,
The new season is knocking on the door, and so we are proud to present our brand new catalogue. We cordially invite you to visit our company. You can also find us at the **Florall fair in Waregem on 3 March and 25 August**.

For further information, we are happy to be at your disposal and wish you a successful 2026.

Kind regards,
Isabelle, Wim, Frans, Margriet and the Maes-Reyns team.

Résistant à l'hiver, Belles fleurs au printemps et à l'automne

Hardy, beautiful flowers in spring and autumn

Cyclamen zijn winterharde planten. Ze zijn bestand tegen koude temperaturen en kunnen goed gedijen in koele omgevingen. Cyclamen houden van goed doorlatende grond en worden vaak gebruikt als tuinplanten of voor het opfleuren van bloembedden in de herfst, winter en voorjaar.

Les cyclamens sont des plantes rustiques. Elles peuvent résister aux températures froides et prospérer dans des environnements frais. Les cyclamens aiment les sols bien drainés et sont souvent utilisés comme plantes de jardin ou pour égayer les plates-bandes en automne, en hiver et au printemps.

Cyclamen are hardy plants. They can withstand cold temperatures and thrive in cool environments. Cyclamen like well-drained soil and are often used as garden plants or to brighten flower beds in autumn, winter and spring.

Gaura

In een pot of in de grond altijd succes!

En pot ou en terre, toujours un succès !

In a pot or in the ground always success!

Gaura lindheimeri, bekend om zijn sierlijke bloemen op lange stelen, bloeit van lente tot herfst. Met witte of lichtroze bloemen trekt het bijen en vlinders aan. Ideaal voor tuinontwerpen vanwege zijn lichte uitstraling, gedijt Gaura in volle zon en goed doorlatende grond.

Gaura lindheimeri, connu pour ses fleurs délicates sur de longues tiges, fleurit du printemps à l'automne. Ses fleurs blanches ou rose pâle attirent les abeilles et les papillons. Idéal pour les jardins en raison de son aspect léger, le Gaura prospère en plein soleil et dans un sol bien drainé.

Gaura lindheimeri, known for its dainty flowers on long stems, blooms from spring to autumn. With white or pale pink flowers, it attracts bees and butterflies. Ideal for garden designs because of its light appearance, Gaura thrives in full sun and well-drained soil.

Sedum

Mooi assortiment voor in de tuin en op het balkon.

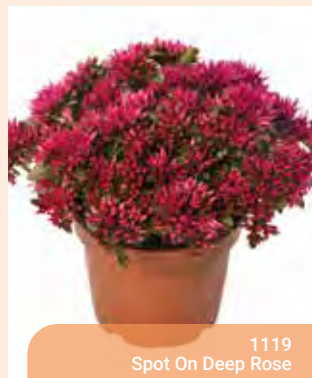

Belle gamme pour le jardin et le balcon.

Beautiful range for the garden and balcony.

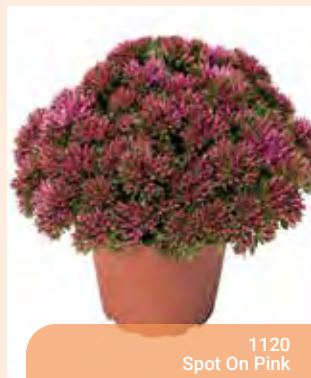

Sedum planten zijn ideaal voor tuinen en balkons vanwege hun resistentie, aanpassingsvermogen aan verschillende omstandigheden en eenvoudig onderhoud. Ze voegen kleur toe aan buitenruimtes, trekken bestuivers aan, zijn droogtebestendig en winterhard.

Les plantes Sedum sont idéales pour les jardins et les balcons en raison de leur résistance, de leur adaptabilité à différentes conditions et de leur facilité d'entretien. Elles ajoutent de la couleur aux espaces extérieurs, attirent les pollinisateurs, résistent à la sécheresse et sont rustiques.

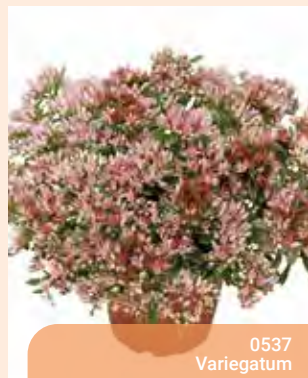

Sedum plants are ideal for gardens and balconies because of their resistance, adaptability to different conditions and easy maintenance. They add colour to outdoor spaces, attract pollinators, are drought-resistant and hardy.

Balkonplanten - Plantes de balcon - Balcony plants

Met ons uitgebreid assortiment van eenjarige planten breng je diversiteit op het balkon en in de tuin. Eenjarige planten zijn planten die je tuin in de zomer doen opfleuren tot een kleurrijk geheel. Ze komen voor in alle maten, vormen en kleuren.

Apportez de la diversité à votre balcon et à votre jardin grâce à notre large gamme d'annuelles. Les annuelles sont des plantes qui égayent votre jardin en été. Elles existent dans toutes les tailles, formes et couleurs.

Bring diversity to your balcony and garden with our wide range of annuals. Annuals are plants that brighten up your garden in summer. They come in all sizes, shapes and colours.

Pelargonium

Is de sterkste eenjarige bloeier voor potten en bakken.

C'est la plus forte floraison annuelle pour les pots et les conteneurs.

Is the strongest annual bloomer for pots and containers.

De Pelargonium is een gemakkelijke balkonplant voor potten en hangmanden. Staat graag in de zon en mag dan begoten worden als de grond bijna droog is. Regelmatig de verwelkte bloemen en lelijke bladeren uitknippen zorgt voor meer bloei.

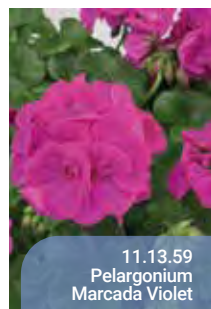

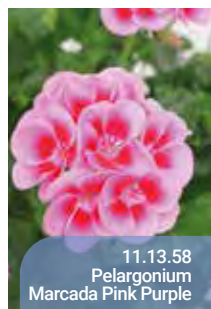

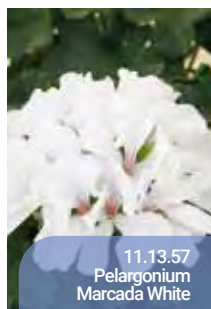

Le pélargonium est une plante de balcon facile à planter dans les pots et les paniers suspendus. Il aime être exposé au soleil et peut être arrosé lorsque le sol est presque sec. Coupez régulièrement les fleurs fanées et les feuilles disgracieuses pour augmenter la floraison.

The Pelargonium is an easy balcony plant for pots and hanging baskets. Likes to stand in the sun and may be watered when the soil is almost dry. Regularly cut out wilted flowers and unsightly leaves to increase flowering.

Eucalyptus Ø 10.5 - 17

Eucalyptus

De eucalyptusplant gedijt het beste in zonnige omstandigheden en heeft overvloedig water nodig. Het is dus belangrijk om regelmatig water te geven, vooral tijdens droge periodes en wanneer de plant in een pot staat. Aangezien eucalyptus bekend staat als een snelle groeier, is het raadzaam om af en toe te snoeien. Gelukkig vereist eucalyptus over het algemeen weinig onderhoud. De plant heeft een redelijke vorstbestendigheid, maar tijdens langdurige en strenge vorst is het raadzaam om een dikke laag bladeren of stro rond de plant te leggen als bescherming.

L'eucalyptus se développe mieux dans des conditions ensoleillées et a besoin d'eau en abondance. Il est donc important de l'arroser régulièrement, surtout pendant les périodes sèches et lorsque la plante est en pot. L'eucalyptus ayant une croissance rapide, il est conseillé de le tailler de temps en temps. Heureusement, l'eucalyptus nécessite généralement peu d'entretien. La plante résiste assez bien au gel, mais en cas de gel prolongé et sévère, il est conseillé de placer une épaisse couche de feuilles ou de paille autour de la plante pour la protéger.

The eucalyptus plant thrives best in sunny conditions and needs abundant water. So it is important to water regularly, especially during dry periods and when the plant is in a pot. As eucalyptus is known to grow fast, it is advisable to prune occasionally. Fortunately, eucalyptus generally requires little maintenance. The plant has reasonable frost resistance, but during prolonged and severe frosts, it is advisable to put a thick layer of leaves or straw around the plant as protection.
